Comprehensive EMS. Quality You Can Build On.

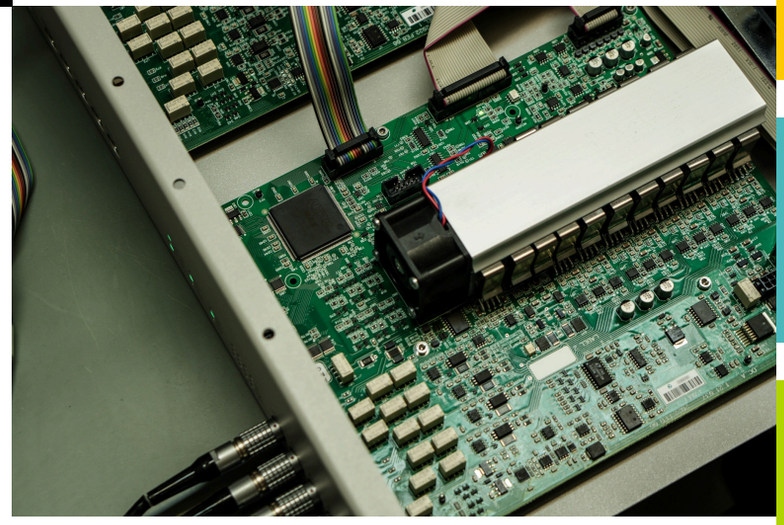

Elektromont Kft. is a Hungarian EMS partner with over 20 years of experience in PCBA and complete device assembly.

We help customers reduce manufacturing risk through documented processes, full traceability and dedicated project coordination.

From prototypes to serial production, we coordinate component sourcing, assembly, inspection and delivery around your requirements.

5000 m² production area

3 SMT lines

Full manufacturing traceability

1,750,000 pcs daily component mounting capacity

maximum panel size **510*510 mm**

BGA rework

wave-, selective- and vapour phase **soldering**

conformal **coating**

40 workstations

X-RAY inspection

YOUR PROJECT
OUR MANUFACTURING EXPERTISE

PREPARATION
- Technical documentation review
- Component sourcing
- Laser marking
- PCB sourcing

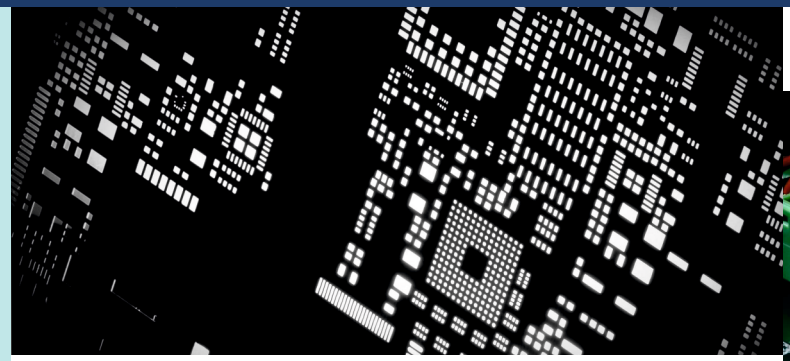

MOUNTING
- SMT
- THT

INSPECTION
- SPI
- AOI
- Testing
- X-RAY

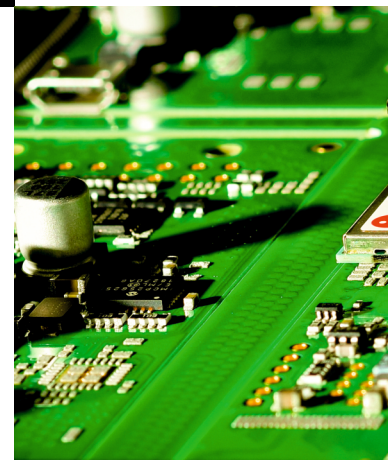

FINAL ASSEMBLY
- Programming
- Conformal coating
- Cable assembly
- Mechanical assembly

COMPLETE BOX BUILD

DELIVERY

Comprehensive EMS Services

- integrated procurement solutions
- prototype assembly
- serial production
- turnkey manufacturing
- box build
- quick-turn PCB assembly
- multi-stage inspection
- rework and repair services

Why Elektromont?

- European quality
- full traceability
- high-level quality control
- sourcing-to-delivery support
- advanced manufacturing
- one partner - prototype to series
- dedicated project team
- documented processes
- own manufacturing plant
- flexible production
- global supplier network
- seamless ERP-MES integration
